Skin Care Formula

## BRAND GUIDELINES

# *Neuro Longevity Skincare.*

Advanced formulas designed to slow biological skin aging while neutralizing the effects of stress on the skin. A dual-action approach that works where aging truly begins – at the cellular level and the skin-brain axis.

By integrating advanced peptides, scientifically backed actives, and neurocosmetic innovation, Richie brings together dermatological insight and modern formulation science.

## *Cellular Renewal*

Stimulating the skin's own repair and turnover – reversing aging at the source.

## *Biological Age*

Your skin can be biologically younger than your birth year through clinically backed actives.

## *Barrier Preservation*

A strong barrier delays degradation, retains moisture, and resists environmental stress.

## *Compounding Results*

Like financial investment, longevity skincare rewards consistency over time.
